

Level of education	University
Cycle universitaire	1er cycle
Academic credential	Bachelor Degree
Number of credits	90 – 120 credits
Duration	3 – 4 years

Biology

Biology is the study of life. The program provides students with an introduction to the broad spectrum of Biological Sciences in contrast to more specialized programs in Biochemistry, Microbiology, Physiology and Anatomy and Cell Biology. This program provides a solid background for those interested in careers related to environmental protection, wildlife management, biotechnology and genetic engineering.

This program is available in French: Baccalauréat en biologie.
